Build and deploy an ML App in minutes with Streamlit

Sebastián García Martínez
Junior Data Scientist at BeCode Ghent

Overview

01 Description of the app

02 Let's get coding!

03 Bonus?

04 Q&A and Feedback

The App

Wikipedia Question Answering app

What will we use?

01

Streamlit

Open-source library for ML apps

02

Transformers

DistilBERT

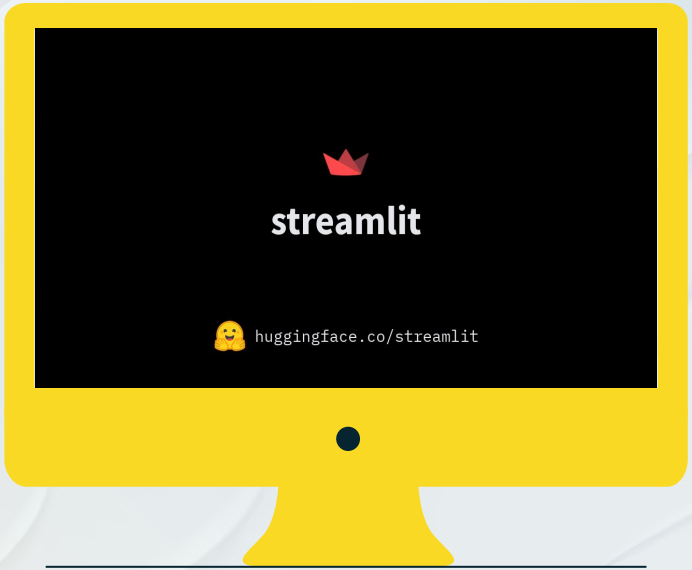
03

Wikipedia API

Access and parse data from Wikipedia

Let’s get our hands dirty!

Cloud



Bonus!

LottieFiles

Thank you!
